

GETTING STARTED

Super Off Road is a game for up to 4 dirt grinding drivers.

1. With your Lynx system off, insert the game card as described in the Lynx Owners Manual.
2. Press **ON**. The Super Off Road opening screens appear, followed by the Game Setup display. Press **A** or **B** at the title screen to go to drive mode.
3. Press **A** or **B** again to begin and track selection screen.

Move Joystick **UP/DOWN** to select proper letter of initial.

Move Joystick **LEFT/RIGHT** to go from one initial to another.

Press **B** to change track selection.

Press **A** to go to Speed Shop for purchasing options.

At the Speed Shop Screen:

Move Joystick **LEFT/RIGHT** and **UP/DOWN** to move selection box to proper purchase item.

Press **A** to purchase a single unit of the selected purchase item.

When shopping completed, move selection box to "Start Next Race" & press **A**.

GOOLYNX

With up to 4 games and machines connected continue from "G" and enter players initials and track selection as previously mentioned and continue game play.

ON SCREEN DISPLAY

During the race the on screen display gives you the current race times and each trixels position, plus the amount of nitro available - use this carefully and to your advantage.

RACING

Win races to earn prize money to enable you to buy improvements for your truck for your next race.

At the Race Screen:

Press **A** and hold to accelerate and maintain speed.

Release **A** to slow down.

Press **B** to use nitro boost.

Move Joystick **LEFT/RIGHT** to steer truck in proper direction.

At the Race Results Screen:

Press **A** or **B** to return to Speed Shop.

Repeat Speed Shop instructions.
